The Report on Financial Results and Operational Status

for the six-month period ended August 31, 2024

Independent Auditor's Report

The Board of Directors Nomura Real Estate Master Fund, Inc.

The Audit of the Financial Statements

Opinion

We have audited the accompanying financial statements of Nomura Real Estate Master Fund, Inc. (the Company), which comprise the balance sheet as at August 31, 2024, and the statements of income and retained earnings, changes in net assets, and cash flows for the six-month period then ended, and notes to the financial statements.

In our opinion, the accompanying financial statements present fairly, in all material respects, the financial position of the Company as at August 31, 2024, and its financial performance and its cash flows for the six-month period then ended in accordance with accounting principles generally accepted in Japan.

Basis for Opinion

We conducted our audit in accordance with auditing standards generally accepted in Japan. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are independent of the Company in accordance with the ethical requirements that are relevant to our audit of the financial statements in Japan, and we have fulfilled our other ethical responsibilities in accordance with these requirements. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Other Information

Other information comprises the information included in disclosure documents that contain audited financial statements, but does not include the financial statements and our auditor's report thereon.

We have concluded that other information does not exist. Accordingly, we have not performed any work related to other information.

Responsibilities of Management and the Supervisory Director for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in Japan, and for such internal control as management determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is responsible for assessing the Company's ability to continue as a going concern and disclosing, as required by accounting principles generally accepted in Japan, matters related to going concern.

The Supervisory Director is responsible for overseeing the Company's financial reporting process.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with auditing standards generally accepted in Japan, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion.
- Consider internal control relevant to the audit in order to design audit procedures that are
 appropriate in the circumstances for our risk assessments, while the purpose of the audit of
 the financial statements is not expressing an opinion on the effectiveness of the Company's
 internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the financial statements, including the
 disclosures, and whether the financial statements represent the underlying transactions and
 events in a manner that achieves fair presentation in accordance with accounting principles
 generally accepted in Japan.

We communicate with the Executive Director regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide the Executive Director with a statement that we have complied with the ethical requirements regarding independence that are relevant to our audit of the financial statements in Japan, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, actions taken to eliminate threats or safeguards applied to reduce threats to an acceptable level.

Fee-related Information

The fees for the audits of the financial statements of the Company and other services provided by us and other EY member firms for the six-month period ended August 31, 2024 are 26 million yen and 11 million yen, respectively.

Interest Required to Be Disclosed by the Certified Public Accountants Act of Japan

Our firm and its designated engagement partners do not have any interest in the Company which is required to be disclosed pursuant to the provisions of the Certified Public Accountants Act of Japan.

NOTES TO FINANCIAL STATEMENTS

1. ORGANIZATION

Nomura Real Estate Master Fund, Inc. ("NMF") is a real estate investment corporation formed to own and invest primarily in office buildings, retail facilities, logistics and residential facilities. NMF is externally managed by a licensed asset management company, Nomura Real Estate Asset Management Co., Ltd. ("NREAM"). NREAM is a wholly-owned subsidiary of Nomura Real Estate Holdings, Inc. NMF was established on October 1, 2015 through the consolidation type merger involving the former Nomura Real Estate Master Fund, Inc. (hereinafter the "former NMF"), Nomura Real Estate Office Fund, Inc. (hereinafter "NOF") and Nomura Real Estate Residential Fund, Inc. (hereinafter "NRF"), and listed its investment securities (TSE code: 3462) on the Real Estate Investment Trust Section of the Tokyo Stock Exchange on October 2 of the same year.

NMF adopts the basic policy of investing primarily in real estate and other assets to secure stable income and steady growth of assets under management over the medium to long term. In order to realize this basic policy, NMF adopts an investment strategy that centers on the Greater Tokyo area (Tokyo, Kanagawa, Chiba and Saitama prefectures), which has strong tenant demand, while also considering regional diversification through the three major metropolitan areas and cabinet-order designated cities, etc. By combining the "diversified type strategy" in which investments are made in facilities of a variety of sectors such as office buildings, retail facilities, logistics and residential facilities with the "large-scale REIT strategy," which pursues the effects of diversifying properties and tenants, to make the portfolio more stable as well as with the utilization of the "leasing value chain" with the Nomura Real Estate Group, the sponsor, NMF will aim to increase unitholder value by securing stable income and steady growth of assets under management over the medium to long term.

2. BASIS OF PRESENTATION

NMF maintains its accounting records and prepares its financial statements in accordance with accounting principles generally accepted in Japan ("Japanese GAAP"), including provisions set forth in the Investment Trust Act of Japan, the Companies Act of Japan, the Financial Instruments and Exchange Act of Japan and related regulations, which are different in certain respects as to the application and disclosure requirements of International Financial Reporting Standards.

The accompanying financial statements are a translation of the audited financial statements of NMF, which were prepared in accordance with Japanese GAAP and were presented in NMF's Securities Report filed with the Kanto Local Finance Bureau. In preparing the accompanying financial statements, certain reclassifications and modifications have been made to the financial statements issued domestically in order to present them in a format that is more familiar to readers outside Japan. In addition, the notes to financial statements include certain information that might not be required under Japanese GAAP but is presented herein as additional information. Amounts have been rounded to the nearest thousand yen in the accompanying financial statements and the notes thereto, whereas amounts were truncated in the Japanese financial statements prepared in accordance with Japanese GAAP. NMF's fiscal period is a six-month period which ends at the end of February or August. NMF does not prepare consolidated financial statements because it has no subsidiaries.

3. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Cash and cash equivalents

Cash and cash equivalents consist of cash on hand, deposits placed with banks and short-term investments that are highly liquid, readily convertible to cash, with an insignificant risk of market value fluctuation, and with a maturity of three months or less when purchased.

Property and equipment

Property and equipment are stated at cost, which includes the purchase price and related costs for acquisition, less accumulated depreciation.

Depreciation is calculated by the straight-line method over the estimated useful lives of the fixed assets outlined below:

Buildings 3 - 70 years
Structures 3 - 45 years
Machinery and equipment 6 - 17 years
Tools, furniture and fixtures 2 - 20 years

Intangible assets

Intangible assets are amortized by the straight-line method.

Goodwill is amortized using the straight-line method over 20 years.

Fixed-term land leasehold is amortized using the straight-line method over the contractual period.

Long-term prepaid expenses

Long-term prepaid expenses are amortized by the straight-line method.

Impairment of fixed assets

NMF reviews fixed assets for impairment whenever events or changes in circumstances indicate that the carrying value of its fixed assets may not be recoverable. An impairment loss is recognized if the carrying value of an asset exceeds the aggregate estimated future cash flows. If a fixed asset is determined to be impaired, it is written down to its recoverable amount and the write-down is recorded as an impairment loss during the period in which it occurs.

Deferred investment corporation bond issuance costs

Deferred investment corporation bond issuance costs are amortized by the straight-line method over the respective terms of the bonds.

Investment unit issuance expenses

The entire amount is expensed as incurred.

Allowance for doubtful accounts

For allowance for doubtful accounts against possible losses arising from default on receivables, the uncollectable amount is estimated and recorded by investigating collectability based on historical loan loss ratios for general receivables and on a case-by-case examination for doubtful and other specific receivables.

Accounting treatment of beneficial interests in real estate

All assets and liabilities held in trust, for which the real estate in possession of NMF was entrusted, and all related earnings and expenses incurred are reflected in the accompanying balance sheet and statement of income and retained earnings, respectively.

Property related taxes

Property in Japan is subject to property taxes, urban planning taxes and depreciable property taxes on a calendar year basis. The taxes related to property are generally imposed based on the value of the relevant property and incurred for the fiscal period. The seller of a property is liable for property related taxes for the period from the purchase date through the end of that calendar year because taxes are imposed on the owner registered in the record as of January 1 for the entire year based on the assessment made by the local government. The amount applicable to the buyer of a property is usually settled between each party and capitalized as part of the acquisition cost of the property. The capitalized property related taxes amounted to ¥4,793 thousand for the fiscal period ended February 29, 2024 and ¥49,580 thousand for the fiscal period ended August 31, 2024.

Revenue recognition

Main performance obligations concerning revenues from contracts with NMF's customers and normal points in time when the obligations are satisfied (normal points in time when revenues are recognized) are as follows:

(1) Disposition of real estate

Gains on sale of real estate are recorded at the points in time when customers or the buyers acquire control over the real estate by NMF satisfying delivery obligations stipulated in the contracts on real estate disposition.

(2) Utility expense revenues

Utility expense revenues are recorded according to the supply of electricity, water, etc. to customers or the tenants based on the lease contracts and attached agreements.

Among utility expense revenues, when NMF is acting as an agent in a transaction, it is NMF's policy to recognize net amounts as revenues after deducting the amounts paid to the suppliers of electricity, gas, etc. from the amounts NMF received as utility charges.

Income taxes

Deferred tax assets and liabilities are computed based on the differences between the financial statements and income tax bases of assets and liabilities using the applicable statutory tax rates.

Method of accounting for non-deductible consumption tax, etc.

Non-deductible consumption tax, etc., on such items, as noncurrent assets is included in the acquisition costs of individual items.

Derivative financial instruments

NMF utilizes interest-rate swap contracts as derivative financial instruments only for the purpose of hedging its exposure to changes in interest rates. NMF defers recognition of gains or losses resulting from changes in the fair value of interest-rate swap contracts which meet the criteria for deferral hedge accounting.

Although deferral hedge accounting is generally applied, NMF applies the special treatment to those interest-rate swap contracts that meet the criteria for such special treatment. Under the special treatment, interest-rate swaps are not remeasured at fair value; instead, the net amount paid or received under the interest-rate swap contract is recognized and included in interest expense or income.

- Note 1: The weighted-average interest rate is weighted by the balance of each borrowing at the end of the period and rounded to the nearest fifth decimal place.

 As for the borrowings, hedged by interest-rate swaps for the purpose of avoiding interest rate fluctuation risk, the swapped interest rates are used to calculate the weighted-average interest rate.
- Note 2: At the end of the period, these loans are accounted for under current liabilities on the balance sheets as the current portion of long-term borrowings.
- Note 3: Installments of ¥10.7 million will be made on the 26th day of every third month starting on August 26, 2013, with the remaining payment of ¥497.1 million to be repaid on May 26, 2025.

15. INCOME TAXES

The Company, as an investment corporation, is subject to corporate income taxes at a statutory tax rate of approximately 31.46% for the fiscal period ended August 31, 2024. However, the Company may deduct dividend distributions paid to its unitholders from its taxable income amounts, provided such distributions meet the requirements under the Act on Special Measures Concerning Taxation of Japan. Under this act, an investment corporation must meet a number of tax requirements, including a requirement to distribute in excess of 90% of its distributable income for the fiscal period, in order to deduct such amounts. If the investment corporation does not satisfy all of the requirements, the entire taxable income of the investment corporation will be subject to regular corporate income taxes.

Since the Company distributed in excess of 90% of its distributable income in the form of cash distributions totaling \\$16,102,681 thousand for the fiscal period ended August 31, 2024, such distributions were treated as deductible distributions for purposes of corporate income taxes.

16. FINANCIAL INSTRUMENTS

Overview

(1) Policy for Financial Instruments

Upon acquisition of property-related assets, the Company may raise funds through certain financing methods including borrowings, issuance of investment corporation bonds and issuance of investment units. In financing through interest-bearing debt, to secure stable financing capability and reduce future risks of rising interest rates, the Company's investment policy is to secure longer-term, fixed-rate borrowings with well-diversified maturities.

The Company enters into derivative transactions only for the purpose of reducing risk of future interest rate fluctuations and does not engage in speculative transactions.

(2) Type and Risk of Financial Instruments and Related Risk Management

Borrowings and investment corporation bonds are primarily used to fund the acquisition of property-related assets as well as the repayment of debts and redemption of investment corporation bonds. The Company is exposed to liquidity risk of being unable to meet its obligations on scheduled due dates. The Company controls and limits such risk by diversifying not only the financial institutions, but also the type of financing to include the effective use of surplus funds and direct financing from the capital markets such as issuance of investment units. In addition, the Company is exposed to the market risk arising from fluctuations in interest rates on its floating-rate debt. However, the effect of such risk on the operation of the Company is limited by maintaining the LTV ratio at low levels and the ratio of long-term fixed-rate debt to total debt at high levels. Furthermore, the Company may utilize derivative transactions (interest-rate swap transactions) as a hedging instrument to reduce the market risk under floating-rate debt by swapping such floating-rate interest payments for fixed-rate interest payments.

Bank deposits are held as a means of investing surplus funds, and the Company is exposed to the credit risk that financial institutions may default. However, the effect of such risk is limited by diversifying the financial institutions with which surplus funds are deposited.

(3) Supplementary Explanation on Estimated Fair Value of Financial Instruments

The fair value of financial instruments is based on the quoted market price, if applicable. When there is no quoted market price available, fair value is reasonably estimated. Certain assumptions are used for the estimation of fair value. Accordingly, the result of such estimation may change if different assumptions are used. Furthermore, the contractual amounts of derivative transactions stated in "24. Derivatives and Hedge Accounting" below do not represent the market risk involved in these derivative transactions.

Fair Value of Financial Instruments

(v) Derivative transactions	_	_	-

Note 1: The numbers in parenthesis indicate liabilities.

Note 2: Method for determining the fair value of financial instruments and derivative transactions.

- (i) Current portion of Investment corporation bonds and (iii) Investment corporation bonds
 The fair value of investment corporation bonds issued by the Company is determined based on their market prices.
- (ii) Current portion of long-term debt and (iv)Long-term debt

For floating-rate long-term debt, the carrying value is reported as it is considered to be approximately equal to the fair value because such debt reflects the market interest rates within a short-term period. (However, the fair value of certain floating-rate long-term debt that qualifies for the special treatment of interest-rate swaps (see "26. Derivatives and Hedge Accounting") is determined by discounting the sum of its principal and interest payments net of any cash flows from the interest-rate swap at a rate reasonably estimated to be applicable to similar fixed-rate debt.) The fair value of fixed-rate long-term debt is determined by discounting the sum of its principal and interest payments at a rate reasonably estimated to be applicable to similar fixed-rate debt.

(v) Derivative transactions

See "26. Derivatives and Hedge Accounting."

17. ASSET RETIREMENT OBLIGATIONS

Asset retirement obligations that are reported on the balance sheet.

1. Overview of the asset retirement obligations

The asset retirement obligations represent restoration obligations under fixed-term land leases.

2. Calculation method of the asset retirement obligations

Asset retirement obligations are calculated using the expected period of use, which is the fixed-term land lease term (41 to 46 years), and a discount rate of 1.4 - 2.0%.

3. Changes in total asset retirement obligations

Note 1: The carrying value represents the acquisition cost less accumulated depreciation.

Note 2: Of the change in investment and rental properties, the increase during the previous period is mainly attributable to the acquisition of Hotel Wing International Premium Kyoto-Sanjo (\(\frac{\pmathbf{x}}{3},339,800\) thousand), Proud Flat Shibuya Sasazuka (\(\frac{\pmathbf{x}}{2},287,467\) thousand), PROUD FLAT Asakusa DIAGE (\(\frac{\pmathbf{x}}{1},357,724\) thousand), Irize Urayasu (\(\frac{\pmathbf{x}}{1},173,266\) thousand). The decrease during the previous period is mainly attributable to the sale of PRIME URBAN Kanayama (\(\frac{\pmathbf{x}}{4}60,506\) thousand), PRIME URBAN Kamimaezu (\(\frac{\pmathbf{x}}{1},358,571\) thousand), PRIME URBAN Chihaya (\(\frac{\pmathbf{x}}{5}18,373\) thousand), as well as depreciation (\(\frac{\pmathbf{x}}{5},765,827\) thousand). The increase during the current period is mainly attributable to the acquisition of MIMARU SUITES Tokyo Asakusa (\(\frac{\pmathbf{x}}{2},404,512\) thousand), Hotel Wing International Premium Kanazawa Ekimae (\(\frac{\pmathbf{x}}{2},204,456\) thousand), Kojimachi Millennium Garden (\(\frac{\pmathbf{x}}{2}85,042\) thousand), MEFULL CHITOSEKARASUYAMA (\(\frac{\pmathbf{x}}{1},902,243\) thousand), Landport Tama (\(\frac{\pmathbf{x}}{1},657,878\) thousand), PRIME URBAN Nishi Nippori (\(\frac{\pmathbf{x}}{1},011,186\) thousand). The decrease during the current period is mainly attributable to the sale of NMF Ueno Building (\(\frac{\pmathbf{x}}{6},604,804\) thousand), Harumi Island Triton Square Office Tower Y (\(\frac{\pmathbf{x}}{1},853,438\) thousand), PRIME URBAN Iidabashi (\(\frac{\pmathbf{x}}{1},880,253\) thousand), as well as depreciation (\(\frac{\pmathbf{x}}{5},750,298\) thousand).

Note 3: Fair value at the end of the period is the appraisal value or investigation value determined by investigation, found by an outside real estate appraiser.

However, in the previous period, transfer price is used as the fair value for NMF Ueno Building, PRIME URBAN Iidabashi. In the current fiscal period, the scheduled transfer price is used as the fair value for NMF Shinjuku Minamiguchi Building.

The income (loss) in the previous period (from September 1, 2023 to February 29, 2024) and current period (from March 1, 2024 to August 31, 2024) for investment and rental properties is as presented in "Notes to Statement of Income and Retained Earnings" earlier in this report.

(2) Transaction prices allocated to remaining performance obligations

Previous period (from September 1, 2023 to February 29, 2024)

As of February 29, 2024, the transaction price allocated to remaining performance obligations relating to the sale of real estate and other assets was ¥9,174,000 thousand for which purchase and sale agreements were concluded on January 26, 2024, and February 7, 2024.

Of the remaining performance obligations, NMF completed the transfer of \(\frac{\pmathbf{4}}{6},930,000\) thousand of the relevant real estate and other assets on April 1, 2024 and \(\frac{\pmathbf{2}}{2},244,000\) thousand of the relevant real estate and other assets on April 24, 2024 and expects to recognize a gain in the August 31, 2024 (18th) fiscal period.

Concerning utility expense revenues, NMF recognizes them with the amounts for which it has the right to claim according to item 19 of the Implementation Guidance on the Accounting Standard for Revenue Recognition. This is because NMF has the right to receive the amounts of consideration, which directly correspond to the value for customers or tenants, from customers for the portions where the obligations are satisfied before the end of a fiscal period. Accordingly, adopting the stipulation of item 80-22 (2) of the Accounting Standard for Revenue Recognition, utility expense revenues are not included in the note on transaction prices allocated to remaining performance obligations.

Current period (from March 1, 2024 to August 31, 2024)

Not applicable.

Calculation method of distribution amount

NMF calculates distributions in accordance with the cash distribution policies as specified in Article 36, paragraphs 1 and 2 of NMF's Articles of Incorporation. For the fiscal period under review, NMF decided to distribute \(\frac{\pmathbf{1}}{16,102,681,800}\) (\(\frac{\pmathbf{3}}{3,450}\) per investment unit), which is the amount obtained by adding amortization of goodwill, amortization of fixed-term land leasehold, and amortization associated with recognition of asset retirement obligations, as well as the portion of the gain on sales of real estate deducted in the previous fiscal period to net income and deducting a portion of the gain on sale of real estate for the fiscal period under review.

The entire amount of ¥16,102,681,800, the amount of distributions calculated as described above, will be paid out as distributions of earnings, as said amount does not exceed net income as defined in Article 136, Paragraph 1 of the Act on Investment Trusts and Investment Corporations (Act No. 198 of 1951, hereinafter the Investment Trust Act).
